From Farm to Click: A Usability Evaluation of the Agro Market E-Commerce Website

PART I. Consent Form

You are invited to participate in a usability study for the AgroMarket E-Commerce Website, conducted by Partido State University students as part of the Human-Computer Interaction (HCI2) curriculum. This research aims to evaluate how effectively the platform supports farmers, buyers, and agri-entrepreneurs in the digital trade of agricultural goods. Because your perspective as a potential user is vital to ensuring the system is both intuitive and accessible, we value your participation in this assessment.

The session will involve exploring the AgroMarket system and performing basic tasks related to its marketplace functions. Afterward, you will be asked to complete a 10-item System Usability Scale (SUS) questionnaire and, if you wish, share additional open-ended feedback. The entire process is designed to take between 10 and 15 minutes. Please be aware that your involvement is completely voluntary; you are free to withdraw at any point without any negative consequences.

To maintain your privacy, all gathered data will remain strictly confidential. Your identity will not be shared in any academic reports, and all information will be used exclusively to refine the system's design. While there are no physical risks, you might feel a sense of performance pressure; however, we emphasize that we are evaluating the software, not your skills. Any difficulties you encounter are actually beneficial, as they highlight areas where the interface can be improved.

Ultimately, your contribution helps us develop a more efficient tool for the agricultural sector. By sharing your experience, you are supporting academic research at Partido State University and ensuring that the final AgroMarket platform is optimized to meet the real-world needs of its users.

MICHAEL B. AMATA
Course Instructor, Computational Sciences Department

✦ *CONSENT STATEMENT* ✦

I have read and understood the information provided above. I voluntarily agree to participate in this usability study. I understand that my participation is voluntary and that I may withdraw at any time without consequence.

Contact Information

For questions or Concerns regardinf this study, please contact:

Group Leader: Rizza C. Moralida **Email:** rizzamoralida26@gmail.com

PART II. Demographic Profile

Please complete the following information before proceeding to the questionnaire. This information will be kept confidential and used only for research purposes.

Name:_____

Age:_____ **Gender:** [ ] Male [ ] Female [ ] Prefer not to say **Primary**

Role in AgroMarket:

[ ] Buyer/Consumer (Individual purchasing agricultural goods)

[ ] Seller/Farmer (Individual or small farm owner listing products)

[ ] Agri-Enterprise (Business/Organization managing bulk supplies)

[ ] Student/Researcher (Testing for academic purposes)

Professional / Academic Background: _____

Occupation/Course: _____

Affiliation (Company, Farm Name, or School):_____

Year Level / Position: _____

Experience and Technology Use

Have you used a similar e-commerce system before (e.g., Shopee, Lazada, or Agri-trading apps)?

[ ] Yes [ ] No

Frequency of technology use (Internet/Apps):

[ ] Daily [ ] Several times a week [ ] Weekly [ ] Rarely

Level of Experience in Agricultural Trading:

[ ] Beginner (Rarely buy/sell agri-products online)
[ ] Intermediate (Familiar with digital marketplaces)
[ ] Expert (Conduct business online regularly)

PART III. SYSTEM USABILITY SCALE (SUS)

This part of the survey aims to assess your overall experience with the **AgroMarket** system in terms of usability and ease of use. The statements below are based on the **System Usability Scale (SUS)**, a widely recognized tool for evaluating the user-friendliness of digital systems.

Please read each statement carefully. Based on your immediate experience with AgroMarket, indicate your level of agreement by placing a check mark (✓) in the box that best describes your opinion. One check per question.

Rating Scale:

1	2	3	4	5
Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree

#	**Statement**	1 SDA	2 DA	3 N	4 A	5 SA
1	I think that I would like to use this system frequently.					
2	I found the system unnecessarily complex.					
3	I thought the system was easy to use.					
4	I think that I would need the support of a technical person to use this system.					
5	I found the various functions in this system were well integrated.					
6	I thought there was too much inconsistency in this system.					
7	I would imagine that most people would learn to use this system very quickly.					
8	I found the system very cumbersome to use.					
9	I felt very confident using the system.					

10	I needed to learn a lot of things before I could get going with this system.					

PART IV.

OPEN-ENDED QUESTIONS

1. **What did you like most about the system?**

_____

_____

_____

2. **What improvements or changes would you suggest?**

_____

_____

_____
